

## About us

Maxa Design design stunning, stylish buildings that are beautiful to live in, replete with character and personality. Your design brief, budget and lifestyle form the basis of our concepts and we strive to keep your dream alive throughout the design process.

Maxa Design are passionate about designing innovative, energy efficient and environmentally sustainable homes. Whether we are enhancing an existing building or creating a unique response to a blank canvas, we embrace the opportunities you present to us.

Maxa Design endeavours to develop lasting relationships with our clients through effective communication and by ensuring that we understand your vision. We believe you should enjoy the journey and adore the creation and by working collaboratively your vision will become a reality.

## Particular attention is paid to:

- Passive Solar design to naturally warm and cool your home
- Energy saving measures so your house is cheaper to run.
- Water efficiency systems
- Responsible material selection
