

MULLUM CREEK CLIENT TESTIMONIALS

Thank you... so amazing to know how architects can transform ideas into a home design. Now, I am pretty sure that our home will be full of loves, caring and warmth simply because it is tailor-made by SCAPE exclusively for my family!

Lot 36 Mullum Creek

The Mullum Creek team (OR Steve, Danny and Sue Mathews) would like to take this opportunity to express our enormous thanks to Maureen Benier and her team at Scape for their hard work on Mullum Creek to date.

Maureen was introduced to the team back in 2013, when she did some crucial work on the layout of the subdivision, creating homesites that are as 'buildable' as the sometimes steep terrain allows, and a more pleasing and inviting arrangement of roads, water features and pocket parks.

The final appearance / experience of living in the Mullum Creek estate will owe a great deal to Maureen's vision"

The Mathews Family, Mullum Creek

PHILOSOPHY

At SCAPE we have a unique vantage point, having worked extensively for over a decade on master planned housing developments.

A Melbourne based architectural practice committed to delivering exciting design solutions for our residential clients ... we take pleasure in listening & delivering your dream home ... we take you on a journey that explores how you want to live, in a responsive sustainable way .... supporting you through your building process right up to when the keys are handed over.

We offer our clients a range of services

- 01 concept design and complete information for the Mullum Creek incentive package 01 ....
02 design & documentation ready for all DRC and council approvals ...
03 completion of all documentation & site administration required to build your home

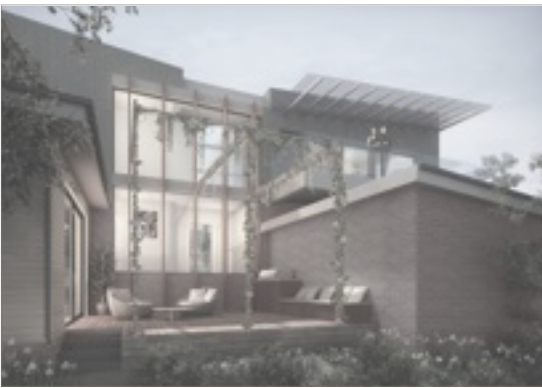

We are passionate about what we do and have built excellent working relationships with past and ongoing clients. Our meticulous process ensures that we draw out the unforeseen potential that adds tremendous value to your project.

Our knowledge of Mullum Creek from having being involved in the Design of the masterplan & the DRC in the past 2 years means we can offer clients a unique level of service.
