

Botanical name	Common name	Mature plant size ¹		Plant origin		Preferred growing conditions						Planting and cultivation notes
		Height	Spread	Local Indigenous	Native	Shade	Half Shade	Full sun	Dry site	Moist site	Wet site	
TREES												
<i>Acacia pendula</i>	Weeping Myall	8m	5m		•							May grow taller than 8m in some situations
<i>Angophora costata</i>	Smooth-barked Apple	to 20m	10m		•		•	•	•			
<i>Brachychiton acerifolius</i>	Illawarra Flame Tree	to 15m	12m		•							
<i>Brachychiton populneus</i>	Kurrajong Bottle Tree	to 15m	10m		•							
<i>Brachychiton rupestris</i>	Queensland Bottle Tree	to 10m	10m		•							
<i>Corymbia ficifolia</i>	Red Flowering Gum	to 15m	10m		•							
<i>Eucalyptus scoparia</i>	Wallangara White Gum	to 12m	8m		•			•	•			
<i>Geigera parviflora</i>	Wilga	8m	8m		•							
<i>Hymenosporum flavum</i>	Native Frangipani	to 15m	6m		•			•	•			
<i>Livistonia australis</i>	Cabbage-tree Palm	to 25m	3m		•							
<i>Santalum acuminatum</i>	Quandong	6m	3m		•							
<i>Stenocarpus sinuatus</i>	Queensland Firewheel Tree	15m (10)	5m		•		•	•	•	•		
SMALL TREES												
<i>Eremophila longifolia</i>	Weeping Emu bush	7m (5)	5		•							
<i>Leptospermum petersonii</i>	Lemon-scented Tea Tree	5m	3m		•		•	•	•	•		Good for screening
<i>Pittosporum angustifolium</i>	Weeping Pittosporum	5m (10)	5m		•							
LARGE SHRUBS												
<i>Banksia spinulosa</i>	Hairpin Banksia	2 - 4m	2 - 5m		•		•	•		•		Good for screening
<i>Kunzea parvifolia</i>	Violet Kunzea	0.5 - 2.5m	1 - 3m		•		•	•				
<i>Thryptomene saxicola</i>	Rock Thryptomene	1 - 2m	2 - 4m		•							
SHRUBS (to 1M)												
<i>Grevillea thelemanniana</i>	Spider-net Grevillea	0.5m	1.5m		•			•	•	•		
GROUND COVERS												
<i>Grevillea obtusifolia</i>	Obtuse-leaved Grevillea	prostrate	2 - 3m		•		•	•	•	•		
HERBS & WILDFLOWERS												
<i>Pelargonium rodneyanum</i>	Magenta Storks-bill	0.25m	spreading		•			•	•			
WATER GARDENS												
<i>Myriophyllum crispatum</i>	Upright Milfoil	0.25 - 0.6m	spreading		•		•	•			•	

Notes:

¹ Indicated heights are estimated averages across the site based on growth at 50 years, or at maturity if this occurs earlier, derived from information collated from relevant reference material, professional
